

# CHANGE YOUR LIFE

## WITH ALKALINE & IONIZED WATER

A combination of  
Reverse Osmosis Purifier  
and Alkaline Water Ionizer

Tap water and most bottled water have positive ORP (Oxidation Reduction Potential), which means that there is no antioxidant capacity and therefore it cannot help the body in neutralizing acidity. Medical studies show that alkaline ionic water has the most powerful antioxidant properties, better than vitamins A, C, E, Beta Carotene and selenium, which improves your body's defence against disease. In order to hydrate your body optimally, you need to drink water that is purified, alkaline, ionized and mineral rich.

## YOU WILL IMPROVE IN:

*Energy, Mood, Digestion, Hydration, Immune System & Weight Loss*

### System Features:

Alkaline capacity - pH 9.5 ~ pH 10+, Ionizing capacity - ORP -150 ~ -250, Negative Ions - 7,000 ~ 20,000 EA/cc

- The best alternative to expensive electric Water Ionizers.
- Removes up to 99% of all contaminants (such as Heavy Metals, Fluoride, chlorine, chloramine, prescription drugs), and mineralizes back with essential minerals.
- Produces up to 30 gallons per day of purified, alkaline, and ionized water.
- Keeps high pH levels for months.
- Produces micro-clustered water for maximum hydration and cellular detoxification.
- Removes harmful active oxygen (free radicals) which causes cancer, diabetes, hypertension, aging, decreased energy.
- Removes acidic waste from the body caused by stress, modern diet, air pollution, and bottled water.
- A higher pH in the body reduces the need for fat and cholesterol to protect the body from damaging acids.
- Water and nutrients are absorbed more effectively into the body.
- Cooking with alkaline water improves the taste and quality of foods

All components certified by NSF, alkaline filtration system manufactured and assembled in USA.

# Drink Alkaline Ionized Water!

Consume Freely  
Raw is Best!

10.0

## High Alkaline Ionized Water

Raw Spinach  
Raw Broccoli  
Artichokes  
Brussel Sprouts  
Olive Oil  
Herbal & Green Tea  
Most Lettuce  
Borage Oil  
Raw Zucchini  
Sweet Potato  
Raw Peas  
Apples  
Almonds  
Avocados  
Tomatoes  
Fresh Corn  
Mushrooms  
Turnip  
Olives

Red Cabbage  
Raw Celery  
Cauliflower  
Carrots  
Potato Skins  
Alfalfa Grass  
Sprouted Grains  
Raw Eggplant  
ALfalfa Sprouts  
Raw Green Beans  
Beets & Greens  
Blueberries  
Pears  
Soybeans  
Bell Peppers  
Radish  
Rhubarb  
Pineapple  
Cherries  
Millet  
Wild Rice

Cucumbers  
Collards  
Seaweed  
Onions  
Asparagus  
Lemons & Limes  
Mangoes  
Papayas  
Figs & Dates  
Tangerines  
Melons  
Kiwi  
Grapes  
Strawberries  
Apricots  
Cantaloupe  
Honeydew  
Peaches  
Oranges  
Grapefruit  
Bananas

Alkaline pH

Most foods get more acidic when cooked
